## Efficiency Changes Coming to the SRC

In the coming weeks, patrons may see some gradual changes taking place in the SRC. The changes are necessary as we look to reduce monthly supply costs in the financial situation we are currently experiencing within the state of Illinois. Some of these changes are:

- The eventual elimination of soap provided in the shower areas (both men and women). When the existing supply runs out, the dispensers will come down. The majority of our users bring their own shower essentials as it is now.
- You will see some of the hand sanitizers go away. Currently, there are multiple stations for sanitizer within the facility. We will reduce this number to only those areas in the weight rooms.
- Air fresheners and dispensers will be removed from the bathrooms.

By simple elimination of these items, we are able to save over \$12k per year. We appreciate your patience as we look to make the SRC a more efficient place for all.

## New Website for RSS!

Patrons will also see a new website for Recreational Sports and Services! [rec.siu.edu](http://rec.siu.edu) is back up after being down for a week for some construction. Our new website is vastly improved and while work is still being done, it is easier to navigate and get to the areas you need the most. Try us out!

## Becker Pavilion Updates

Those patrons that have been by the Campus Lake Boat Dock lately may have seen activity ramping up near the pavilion. The wall separating the lake and the pavilion are now constructed and work on the actual Becker Pavilion and Boat Dock will commence soon.

Thanks, Jeff Goelz, for the pictures from 2.9.17
